

YEAR 5 - 2022

TERM 2 WEEK 7 - TERM 3 WEEK 6

WE ARE LEARNING...

OUR SCHOOL VALUES

We are RESPONSIBLE

We are focusing on being responsible for our selves and our belongings.

Help me at home by discussing what being responsible looks like at home and at school, help me keep track of my belongings and ensure my device is charged each day.

LITERACY

To skim and scan a variety of texts, to work out the most important information.

To take notes of key words from texts to develop our research skills.

You can help me at home by asking me to skim and scan articles and encouraging me to continue to keep writing stories and read every day.

NUMERACY

To solve problems using multiplication and continuing our focus on mental computation.

To pose questions to gather data and interpret data sets.

To use appropriate units of measurement for length, area, volume, capacity and mass.

You can help me at home by asking me to teach you the problem solving strategies I am learning in the classroom.

INQUIRY FOCUS

We are learning about how our environment can influence people and communities. We are learning to describe views on how people respond to an issue or a challenge.

You can help me at home by talking how the environment can affect our community.

PERSONAL GOALS

To work on my personal reading goal that I have set with my teacher. I will use the strategies I learn at school during read to self, guided reading, and one-on-one feedback sessions with my teachers to help me read the books that I have at home.
