

WE ARE LEARNING...

OUR SCHOOL VALUES

To be a SAFE class member by being in the right place at the right time.

To be a LEARNER by being curious about the world around us and share our thoughts and ideas.

You can help me at home by noticing when I show you these values.

LITERACY

To read short, decodable and predictable texts

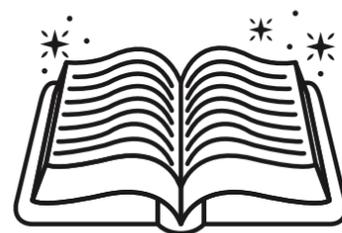

To check for understanding

To develop fluency in reading my sight words

To listen for rhyme, letter patterns and sounds in words

To use familiar words, phrases and images to convey ideas when writing

To correctly form upper-case and lower-case letters

You can help me at home by listening to me read aloud every night with my reader and practising my sight words. When I am reading you can encourage me to predict what will happen next and prompt me to retell the story. You can help me log on to my Reading Eggs account to work on my reading and rhyming words. Encourage me to write shopping lists, letters, sight words and stories at home.

NUMERACY

To count to and from 20, finding one more than and one less than a given number

To order small collections

To explain the order and duration of events and connect events to the days of the week

To identify and sort common 2D and 3D shapes

You can help me at home by counting forwards to and backwards from 100 and noticing patterns in a 100 square. Practise my fluency in addition to ten by adding single digit numbers. Support me in matching quantities to teen numbers and ordering them. Encourage me to recognise my weekly routines and order the days of the week.

INQUIRY FOCUS

My personal history!

We will be learning that the past can be shared through stories and artefacts. Our excursion to the National Museum of Australia will spark my curiosity of how stories of the past can be told and shared. We will be learning about our own personal histories and investigate the different artefacts that can provide clues and information about the past.

You can help me at home by talking to me about my family and family trees and showing me photographs and artefacts that may be around your home. You can share stories of your experience of school with me, the similarities and differences in daily life and share books and show interest in following my wonderings.

LEARNER ASSETS

To listen respectfully to others.

Collaborator- Share our ideas with others

Researcher- Decide what we want to find out

Thinker- Reflect on what we feel and what we have learned

Communicators - Share and listen to others
