

WE ARE LEARNING...

OUR SCHOOL VALUES

To be respectful. We do this by building positive relationships and becoming more aware of our own emotions and those of others.

Help me at home by talking about how to be a good friend or support me while I solve a problem with siblings or friends.

LITERACY

To write texts that persuade and explain.
To learn information or ideas from texts.

Help me at home by sharing an information book with me, we can research a question online or help me write a letter to ask for something I want.

NUMERACY

To choose strategies to add, subtract, multiply and divide and solve multi-operation problems.
To measure temperature, length and objects.

Help me at home by assisting me in using a range of strategies to solve mathematic problems.

INQUIRY FOCUS

To investigate how living things are connected and how ecosystems work.
To observe and classify living or non-living things and to recognise that classifications are not always easy to define or apply.

Help me at home by exploring the living things in my backyard and/or being involved with caring for pets.

PERSONAL GOALS

To work on my personal reading goal that I have set with my teacher for Term 1. I will use the strategies I learn at school during read to self, guided reading, and one-on-one feedback sessions with my teachers to help me read the books that I have at home.
