

WE ARE LEARNING...

OUR SCHOOL VALUES

We are RESPONSIBLE for our learning environments. We tidy our shared areas and make sure our rubbish and recycling is disposed of correctly.

Help me at home by encouraging me to help out around the house.

LITERACY

To use the understanding of persuasive techniques to create advertisements in multiple forms and incorporate ethical persuasive strategies.

To identify how images in books and advertisements are used to represent ideas.

To identify and use a range of language features in the correct context to meet a desired result.

You can help me at home by discussing books we read together.

NUMERACY

To understand the relationship between decimals, fractions and percentages. To calculate fractions of a quantity and common percentage discounts on sale items. To solve problems involving addition & subtraction of related fractions.

To interpret and compare a range of data displays gathered from our Market Day Surveys for K-2 & 3-6.

To make connections between capacity and volume and solve problems using area and perimeter. To connect decimal representations to the metric system and choose appropriate units of measurement to perform calculations.

You can help me at home by talking about the real-world applications of these mathematical skills.

INQUIRY FOCUS

We have been inquiring into marketing and economics through planning the Year Six Market Day. We have created budgets, market research plans and designed marketing and advertisements to promote our stalls.

Towards the end of the term, we will be looking into Australia's migration stories with the driving question "Why do people choose Australia?". We will look at different phases of Australia's migration as well as different stories close to home.

You can help at home by sharing your family history through stories.
