

WE ARE LEARNING...

OUR SCHOOL VALUES

To be a LEARNER.

We do this by trying our best, collaborating with others and asking questions.

You can help me at home by acknowledging my effort in my learning and encouraging me to persevere when tasks become challenging. Remind me that learning is a life-long achievement!

LITERACY

To read with strategies such as blending, chunking, exploring meaningful connections, re-reading and checking for understanding. To write and record ideas using capital letters, finger spaces, full stops, compound sentences, descriptive language and increasing vocabulary. To speak and listen with confidence and respect.

Help me at home by encouraging me to read and write about the things that interest me. Support me by asking questions about the text after I read to aid my comprehension.

NUMERACY

To investigate a range of addition strategies and how we use addition in our everyday lives.

To develop an understanding of patterns, including skip counting, repeated addition and duration of time.

Help me at home by asking me to add everyday items together or help to add the cost and pay for small grocery shops. Challenge me to check the time and report back to you!

INQUIRY FOCUS

To investigate our material world by asking questions about the materials around us.

To make connections to the past and determine what materials have changed over time and how we can become more sustainable.

To predict, hypothesise and problem solve.

Help me at home by including me in discussions around problem-solving or by asking my opinion on materials and their use.

PERSONAL GOALS

To choose a personal reading goal for Term 2 to work on during reading to self time, guided reading sessions and one-on-one sessions with teachers and educators.

You can help me at home by reading with me each day and recording this in my Home Reading log.
