

YEAR 5 - 2022

TERM 3 WEEK 7 - TERM 4 WEEK 10

WE ARE LEARNING...

OUR SCHOOL VALUES

To be RESPONSIBLE for our learning environments. We tidy our shared areas and we make sure our rubbish and recycling is disposed of correctly.

Help me at home by encouraging me to help out around the house.

LITERACY

To respond to literature by thinking about the author's message, purpose and bias. We support our point of view about texts with evidence and reasoning.

To speak clearly and persuasively about a range of topics and to take others' perspectives into account.

You can help me at home by discussing books we read together. You can share articles with me, or even news segments.

NUMERACY

To order decimals and fractions on number lines, and to add and subtract simplified fractions.

To locate landmarks on a map using a grid reference system.

To use appropriate units of measurement for length, area, volume, capacity and mass and to calculate the area and perimeter of regular shapes.

You can help me at home by talking about the real-world applications of these mathematical skills. Tell me about occupations and jobs that use these skills.

INQUIRY FOCUS

We are learning about the different roles within our government, the electoral process and the importance of democracy.

This inquiry incorporates the 2023 School Captains campaign and election. This will provide us with an authentic experience to help us learn the key concepts in our inquiry unit.

You can help me at home by talking about how I could make change as a school leader at Amaroo.
