

WE ARE LEARNING...

OUR SCHOOL VALUES

To be RESPECTFUL.

We do this by talking nicely to other students and our teachers as well as looking after our school, putting things away and keeping our learning spaces tidy.

Help me at home by encouraging me to look after my things by putting them away when I am finished.

LITERACY

Writing to instruct, which gives the reader instructions on how to complete a task. In our writing we will include instructional language including imperative verbs and clear steps written in order.

You can help me at home by helping me follow the instructions from a recipe or looking at the instructional manual when purchasing new products.

NUMERACY

To investigate money including making money values in different ways and calculating change.

To measure objects using metric units for length, mass and capacity.

Help me at home by allowing me to work out how much change you will get when buying products at the store.

INQUIRY FOCUS

To explore history through understanding why we celebrate significant events.

To use and apply the Learner Assets of communicator, collaborator, self-manager, researcher and thinker through a range of explorative and student lead tasks.

Help me at home by discussing with me the significant events you celebrate as a family.

PERSONAL GOALS

To work on my personal reading goal/s that I have set with my teacher. I will use the strategies I learn at school during read to self, guided reading, and one-on-one feedback sessions with my teachers to help me read the books that I have at home.
