

WE ARE LEARNING...

OUR SCHOOL VALUES

To be responsible. We do this by caring for our environment, making good choices and being honest.

Help me at home by letting me join in with the housework, preparing meals, feeding pets and organising myself for school each day.

LITERACY

To 'predict' what might happen in the story at the beginning, middle and end by using clues from the book.

To 'monitor and fix up' when I lose track of what I have read.

You can help me at home by telling me to stop and ask 'does that make sense?' when we read together. Check that I am understanding the story.

NUMERACY

To count to and from 1000 from any given number.

To investigate skip counting patterns focusing on 2, 3, 5 and 10.

To collect, organise and represent data to make simple inferences.

Help me at home by playing card and dice games with me.

On drives in the car, ask me to count forwards and backwards, starting from different numbers or skip counting by 2s, 5s and 10s.

INQUIRY FOCUS

To understand the power of water, why water is needed in our everyday lives and our responsibility to use it effectively. We will explore this through student-led projects, science experiments and group discussions.

Help me at home by explaining the importance of water and allowing me to help use it more responsibly. Talk to me about where the water in our house comes from and goes.

PERSONAL GOALS

To work on my personal reading goal that I have set with my teacher for Term 1. I will use the strategies I learn at school during read to self, guided reading, and one-on-one feedback sessions with my teachers to help me read the books that I have at home.
