

WE ARE LEARNING...

OUR SCHOOL VALUES

To be respectful. We are doing this by setting up new routines around technology in the classroom and continuing to follow our whole class and school expectations.

Help me at home by noticing and encouraging my use of respectful behaviour.

LITERACY

To use the words from the story in order to 'create images' when reading the text.

To use my 'skimming' abilities to find and locate important information in a vast amount of resources and text on the internet and in books.

You can help me at home by reading a story and asking me to draw or explain what I am picturing. Helping me to check my understanding.

NUMERACY

To represent multiplication and division by grouping into sets.
To identify the missing elements in a number sequence.

To associate collections of Australian coins with their value.

Help me at home by encouraging me to sort collections into equal groups. When out shopping help me to calculate the cost of items.

INQUIRY FOCUS

To understand we are connected to places in different ways and identify factors that influence these connections. We will explore this through student-led research projects, group discussions and at home interviews.

Help me at home by discussing places around the world that I am connected with. It would be great if you could explain to me why they are significant to our family examples include: a place we go on holidays or someone special may live there.

PERSONAL GOALS

To work on my new personal reading goal that I have set with my teacher over the term. I will use the strategies I learn at school during read to self, guided reading, and one-on-one feedback sessions with my teachers to help me read the books that I have at home.
